PARENT CONNECT BULLETIN

CLASSES 9 & 11

STRENGTHEN CONCEPTUAL UNDERSTANDING RATHER THAN ROTE LEARNING

STRENGTHEN CONCEPTUAL UNDERSTANDING

Helping students think, not just memorize.

1 ASK "WHY" & "HOW"

Encourage your child to explain why an answer is correct, not just what it is.

Builds deeper understanding and logical thinking.

2 REAL-LIFE CONNECTIONS

Relate concepts to everyday situations.

Example: Use physics in sports, math in shopping, chemistry in cooking.

3 ENCOURAGE DISCUSSION

Have short conversations about what they learned in school.

Let them teach you – it strengthens memory and clarity.

4 FOCUS ON UNDERSTANDING, NOT MARKS

Appreciate effort, curiosity and improvement.

Reduces pressure and promotes meaningful learning.

5 USE PRACTICE SMARTLY

Encourage solving different types of problems instead of repeating the same ones.

Helps apply concepts in new situations.

6 CREATE A SUPPORTIVE ENVIRONMENT

Provide a quiet space, limit distractions and maintain a consistent routine.

Helps improve focus and independent thinking.

Small daily efforts at home can make a big difference in how your child learns and grows.

THIS MONTH, ENCOURAGE YOUR CHILD TO...

- Ask questions and seek clarification
- Make concept maps and notes
- Apply concepts through practice and projects
- Discuss and explain ideas with peers

"Understanding today, excellence tomorrow."

THANK YOU FOR YOUR CONTINUED SUPPORT AND APRTNERSHIP.
