INDIAN SCHOOL AL WADI AL KABIR

PARENT CONNECT BULLETIN
CLASSES 3 – 5

PROMOTING DISCIPLINED TECHNOLOGY USE AND SUSTAINED ATTENTION

Focus is a skill developed through consistent daily routines—not only at home but also at school. Through strong parent–teacher collaboration, we can help students develop the habits they need to stay focused and achieve their goals.

KEY STRATEGIES FOR HOME

THE DIGITAL MIRROR

Model the behavior you want to see by putting your own phone away during family moments.

THE "LAUNCHPAD" STATION

A central charging station in a common area where all devices must be kept overnight to prevent late-night screen time.

THE BALANCED DAY BLUEPRINTS

Balance screen time with storytelling, outdoor play, drawing, puzzles, and family games.

PHYSICAL SCREEN-FREE ZONES

Ban all devices from specific areas of the house—like the dining table and bedrooms—to create natural, tech-free sanctuaries.

THE 1-HOUR BEDTIME BUFFER

Establish a house rule that all screens are turned off exactly one hour before sleep to help their brains wind down naturally.

WHAT WE DO :

Cybersecurity and Privacy

Instill habits of protecting personal information. Students should learn to create strong, unique passphrases, never share passwords, and log out of shared computers.

Mindful Media Balance

Teach students to intentionally disconnect. Encourage tech-free times, such as during physical education or face-to-face social times .

Practicing Netiquette and Empathy

Reinforce that students to think before they post, use constructive language in class forums, and always stand against cyberbullying.

Smart Password Privacy

Teach students to keep passwords completely secret from friends, sharing them only with parents or teachers. Encourage them to use memorable phrases rather than easy-to-guess words like their pet's name.

THANK YOU FOR YOUR CONTINUED SUPPORT AND PARTNERSHIP.

WARM REGARDS,
SCHOOL/L & D TEAM
