GRADE 9 & 11

ENCOURAGE HEALTHY, BALANCED AND RESPONSIBLE SCREEN TIME HABITS

Smart choices today.
Stronger futures tomorrow.

Research shows that balanced screen use supports learning and well-being, while excessive use can affect sleep, mood, focus and physical health.

– American Academy of Pediatrics, WHO, Harvard Health, Common Sense Media

10 PRACTICAL TIPS FOR A HEALTHY BALANCE

1. **Set Clear Boundaries**
   Agree on daily screen time limits for weekdays and weekends. Use a family screen time plan that works for everyone.
2. **Create a Screen-Time Schedule**
   Plan screen time around studies, hobbies, exercise and family. A routine brings balance and consistency.
3. **Encourage Purposeful Use**
   Guide your child to use screens for learning, research, creativity and skill building – not just endless scrolling or gaming.
4. **Keep Screens Away Before Bedtime**
   Avoid screens at least 60 minutes before sleep. Good sleep improves memory, mood, focus and overall well-being.
5. **Be a Role Model**
   Children follow what they see. Model balanced and mindful screen use in your own habits.
6. **Talk, Don't Just Restrict**
   Have open conversations about online safety, cyberbullying, misinformation and the importance of digital well-being. Listen and guide.
7. **Encourage Offline Activities**
   Support participation in sports, music, art, reading, volunteering and time with family and friends.
8. **Use Tech Tools Wisely**
   Use screen time trackers, focus modes and parental control tools as guides, not as substitutes for trust and communication.
9. **Recognize and Appreciate**
   Notice and appreciate your child's efforts to balance screen time with responsibilities and real-life connections.
10. **Promote Digital Responsibility**
    Encourage respect, kindness and integrity online. Remind them: what we share online leaves a digital footprint.

KEEP IN MIND

- **Balance builds better brains.** Balanced screen time supports learning, memory and focus.
- **Well-being comes first.** Too much screen time can affect sleep, mood and health.
- **Real-life connections matter most.** Strong relationships and offline experiences create happier, more confident young adults.
- **Small daily choices create big results.** Consistent, mindful habits today lead to a healthier, more successful tomorrow.

Guiding our children to use technology mindfully today,
so they can lead balanced, meaningful and responsible lives tomorrow.
